

Meet our new Investment Advisor Representative!

Tiffany joined the 56 Capital Partners team in March of 2020 (perfect timing). By now you most likely have had an interaction with her but here is a little more about her! Tiffany is a Texas Native who grew up playing softball and running cross country in her small town just outside Austin, TX. While working on her bachelor's in finance from Penn State, she followed her husband from small town Texas to Mississippi then Illinois while he served in the Air Force. After leaving the Air Force they packed up and chose Colorado as their next destination!

While in Illinois Tiffany took up urban land mushing with her husky and continued that hobby in Colorado, where she adopted her second husky. They now make quite the team! Tiffany prides herself on her ability and desire to provide excellent customer service and really get to know her clients. Tiffany is happy to finally be able to settle down and plant some roots in beautiful Colorado.

"You must be
the change you
wish to see in
the world"

Let's Cover the Crazy Year of 2020

2020 Election Woes

What a turbulent time this election year has been. Here at 56 Capital Partners we want to make sure you have piece of mind when it comes to what happens with your plan. We know that either way this election turns out, we need to be prepared to handle the outcome. With that, we are seeing an uptrend across the financial industry that accounts are moving to a more conservative model. We want to be prepared no matter the result to make sure your account is managed appropriately and we consider your risk tolerance. We are in the process of sending out Investor Profiles so you can update your allocation, be on the lookout. This does not have to be a permanent allocation and we can reassess after the election. Please make sure to contact us if you have any questions. We are here to help you navigate these tumultuous times.

Fiduciary

What is a fiduciary? This is a term so widely used but how do you know that the Advisor you work with is one. We have covered this topic not only in blogs and posts but also in many meetings. It is a word that is thrown around loosely so let's clear it up a little. The literal definition (Merriam-Webster) is "one that holds a fiduciary relation or acts in a fiduciary capacity". Simply put a fiduciary acts in your best interest similar to the 'Golden Rule'. See our blog on 'What is a Fiduciary' for a more in depth discussion. We here at 56 Capital Partners care very much about the well being of our clients and will act in our fiduciary capacity to ensure that your plan goes the way you want it. We want to see you succeed and enjoy the fruits of your labor. Ask questions as they come to mind because we love to educate and teach as part of being a fiduciary. We want you to be informed of your plan and are excited to get you to the finish line.

COVID-19

The snowball that turned into an avalanche, seems to be the best way to describe this great pandemic of 2020! We here at 56 Capital Partners have been right there with you in the confusion, lock downs, strict regulations and so much more. Is it over yet and will there ever be a new normal? We hope so, but in the meantime we are doing our part to help in any way we can. We have seen an economic crisis ensue, record unemployment, record lows in oil and gas, record highs in the stock market and a virus that has crippled the medical system and the world. With no real way forward we are constantly monitoring the effects it could have on your plan and making sure we are researching the data. We have learned a lot through this crisis and are ready to find the new normal going forward by rethinking our methods and strategies!

Market Volatility

Ups and downs. Ups and downs. Ups and downs. Perfect term for this year is a volatile market! It has been unpredictable, has had price instability, and vigorous changes. No one has ever witnessed standard deviation moves like we have this year. There were record highs and record lows in multiple sectors. Basically it has been a roller coaster like no other. Buckle up because the year is not over. 56 Capital Partners is focusing on the data. Economic data (historically) helps drive the market in certain ways. With the economy being in turmoil why is the market not following? There is a definite disconnect between the two and we are working tirelessly to try and make sure we are ready for which ever way the roller coaster goes. If you have concerns or want to talk about it just give us a call and we are more than happy to help!

Office Updates

For the next 2 weeks our physical office will be closed until further notice. We are working from home and are diligently working to be back in the office full-time. We are requesting that if you do need to meet with us we can schedule a phone call. If we meet in person we do require that you wear a mask while in the building and our office. If you do not have a mask we will provide you with one. If you have had COVID-19 or any symptoms relating to COVID-19 we ask that you wait until you are healthy to come in and see us.
